**ATTACH TO THIS FORM:** A copy of an *approved* City of Lake Stevens and or Snohomish County building permit and floor plan in which sinks, toilets, showers, bath tubs, clothes washing machines, and dishwashers are clearly identified.

**NOTICE:** The contractor named must be registered with the District, prior to approval of this Permit application.

**INSPECTION SCHEDULE - PLEASE NOTIFY US AT LEAST 24 HOURS IN ADVANCE TO SCHEDULE**  
A permit shall be obtained and a fee paid before any side sewer work is started. The permit will be delivered to the construction site at the time of the inspection. A permit which includes building sewer work on private property only may be issued to the property owner or to a registered side sewer contractor acting as an agent for the owner, but such permit shall not allow the owner to connect the building sewer to a public sewer except through the normal opening of a wye, tee, or stub under the supervision of the District Manager or his representative. Building sewer permits shall not be transferable. No authorized person, including any registered side sewer contractor, shall lay any pipe pursuant to any other person's permit.

**THE FIRST MONTHLY SEWER SERVICE BILLING** shall be made at the beginning of the following month of application, if made prior to or on the 15th day of the month. If after the 15th, billing will start on second month. ***Billing shall begin whether the side sewer is connected or not.***

I have read and understand the above. I agree to abide by the regulations of the Lake Stevens Sewer District with regard to installation of my side sewer. I also agree to hold harmless the Lake Stevens Sewer District in regard to any damage to the District's system of sewers resulting from Owner's exercise of the side sewer permit and to include the Lake Stevens Sewer District and Gray and Osborne Inc. as additionally insured on contractor's general liability insurance certificate.
